

Year 7 Numeracy and Literacy Catch-up funding

Funding: £14,355

Strategy	Details	Impact	Approximate costs:
Establish baseline reading scores for all scholars	Using NFER tests to identify our weakest readers.	This allowed for our weakest readers to be identified so we knew where to target our interventions	£2600
Establish an alternative reading curriculum for key scholars	Identified scholars are given the opportunity to study an alternative curriculum which focuses on the core skills associated with reading and writing and numeracy. There is a heavy focus on practising these key skills as well as still accessing the core curriculum.	Scholars are making good progress as can be seen in their work and verbally. These scholars will be tested at the end of the year to show the impact of this program.	£6000
Develop Tier 2 & 3 reading interventions	Identified scholars receive extra tuition on reading on writing as part of their wider curriculum. These are led by highly-skilled members of staff.	These scholars will be tested at the end of the year to show the impact of this program.	£3000
Training for staff leading on reading revolution and writing reconsidered as part of the alternative reading curriculum	Every teacher is a teacher of reading and vocabulary. All curriculum areas and lesson have ambitious vocabulary as key part of this.	100% of lessons have ambitious vocabulary planned into them. This means our scholars are exposed to this everyday. This has significant impact on their ability to write.	£N/A
Training for all staff on reading revolution and writing reconsidered	Reading revolution and writing reconsidered are two programmes designed specifically to develop scholars literacy skills in school	Reading especially using Control the Game (CtG) is at least good in all lesson where it being used and scholars are exposed to this regularly throughout the week.	£N/A
Dedicated time on the timetable for reading interventions	4 times a week, scholars are given the opportunity to read in class. This is led by trained staff. These	These scholars will be tested at the end of the year to show the impact of this program.	£N/A

	<p>sessions include reading aloud, understand context, exposure to tier 2 & 3 vocabulary and tasks designed to improve their ability to access all areas of the curriculum.</p>		
<p>One-to-one tutoring</p>	<p>One-to-one tutoring with identified scholars in Yr7 to develop basic number and mathematical skills</p>	<p>More consistent application of maths number rules as shown in assessments.</p>	<p>1500</p>
<p>Calculators</p>	<p>Scholars in year 7 have access to scientific calculators when they are needed to support progress in the classroom.</p>	<p>Improved confidence with numeracy and improvements in progress.</p>	<p>£1250</p>
